INSIDE JOB

Winner of 2011 Academy Award for Best Documentary

INSIDE JOB exposes the shocking truth behind the economic crisis that began in 2008. The global financial meltdown, costing over \$20 trillion, caused millions of people to lose their homes and jobs. INSIDE JOB traces the rise of a rogue industry and unveils the relationships that corrupted politicians, regulators and academics. Narrator Matt Damon exhorts viewers to demand changes in the status quo to stop the unchecked speculation that is causing rising inequality, closing of factories and endless cycles of boom and bust.
